Call 507-281-4878 to reserve this price.

In order to achieve a level of optimal health, you need to maintain a healthy spine and nervous system. Our state of the art equipment allows us to test the health of your nervous system, using x-rays and a detailed postural exam. When there is interference and chaos in your nervous system, your body cannot function at its highest ability. Nervous system impairment can affect the tissues, organs and systems of the body, increasing the susceptibility to disease and ill health.

**(This offer is not valid for Medicare or Medical Assistance patients.)**

“Health is a state of optimal physical, mental and social well-being, not merely the absence of symptoms or disease; it’s a state of optimal FUNCTION!”
